1 " 1 month,	2 00	1 "	1 "		0 50
1 " 2 weeks,	3 50				

Twelve lines Nonpareil (or less) make a square. Leaded Advertisements, "after reading matter," 50 per cent. advance on the above rates.

One sqr. for a year, with a change once a week, $25; 2 do. do. do. do. $40; 1 sqr. with a change every day, $50; 2 sqrs. $100; 3 do. do. do. $150; four changes a year, $25; (DAILY PAPER not included.) No paper will be discontinued (unless at the discretion of the proprietors) until all arrearages are paid.

Persons wishing to discontinue their yearly or casual advertisements, will please notify the Counting Room. All yearlings, must give notice at the Counting Room. All yearly advertisers discontinuing their advertising before the year is out, will be charged at the above rates.

The privilege of Annual Advertisers is limited to their own immediate business, and all advertisements for the benefit or other persons, or on other business, must be paid for at the casual rates.

Communications, the effect of which is to promote private interests, to be paid for at the rate of 50 Cents per square for a single insertion.

In all cases where advertisements are sent in, marked "DAILY AND WEEKLY," they will be charged 50 Cents per square for the first insertion, and 25 Cents for each subsequent insertion in the Weekly.

Advertisements not accompanied with written directions, will be inserted one month, and charged accordingly.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth patent," and has after I had subverted my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for this information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repository of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some six teen years since, and another was put up by Albert Richards of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experience in upon these machines not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent rent for my trouble.
JAMES G. WILSON,
Philadelphia."

May 19, 1849.

I defy any person after saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before that time, and no machine since, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, as "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.
JOSEPH P. WOODBURY.

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also is more wholesome—both being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Mechanics it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

The American Cough Candy.
WE know of nothing in the annals of medicine which has achieved, within the same space of time, so great and general a reputation, as the above brandied *Cough Remedy*. Testimonials of its wonderful efficacy in curing the most inveterate cold continue to flow in upon us. We are assured that where ever used it is superseding all other remedies of the kind. Gresham to relief, the Nightengale had she tested its virtue, probably never would have taken to herself a Goldschmidt. She having taken that melancholy step, from the fear that her voice was gone forever; having experienced only temporary relief from the Remedy last taken.
Why is the American Cough Candy like a Black Cloud? Because it goes ahead of Storms.

From Madison.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

MADISON, April 13.

Mr. Strong's address last evening, which was being delivered at the time that I mailed my letter, was listened to with a great deal of interest.—He took the ground that the acceptance of railroad bonds as banking securities, properly guarded, would make the General Banking Law so satisfactory to him and other Anti-Bank men, that he would support the law heartily and aid to pass it—if not as a Bank Law, at all events as a Railroad Law. The greater part of his address was occupied with a detailed proof of his proposition that Railroad Bonds are the safest security that can be received, of all those offered. As an example of the cost and prospective profit of railroads in this State, he had prepared a mass of figures relative to the Milwaukee and Mississippi Railroad, based upon the actual cost and revenue of that road so far. These tables will be published, I hope, as they convey an amount of information that ought to be given to the people generally.

A communication from Alexander Mitchell Esq was read in the House this morning, in which he states very frankly his object in making the stipulation with the Attorney General, viz: the avoidance of litigation and excitement. He says that it has always been his intention to act with reference to the General Banking Law as he proposed to do in the stipulation. With reference to this latter, he says that he will allow the stipulation to be discharged, if the Legislature shall so resolve, although he deems it entirely binding upon the State, as made by its legal representative.

The State Loan Bill came back from the committee of conference, with a report of disagreement.

The members on the part of the House, reported a substitute for two sections of the substitute bill sent in by the Senate. They propose to have $50,000 in 7 per cent. bonds issued, the same to be negotiated by the Governor as he best can.—In this form the bill went back to the Senate.

The bill providing for a change of venue, in cases where a party shall think the judge prejudiced against him, was killed, after a brief discussion, between Messrs. Botkin, in favor, and Graham and Barlow against.

Messrs. Donaldson and Worthington, reported from the Select committee to which were referred sundry papers relative to certain expenditures by Ex-Gov. Dewey. They refer in strong terms of roprobation to the manner in which the money received from Washington was expended, without authority of law, and to various other items of expenditure, where vouchers are wanting, and services have been overpaid.

The motion yesterday introduced, to strike from the journal Mr. Ricker's protest, making sundry charges against the Executive, was taken up.—Quite an interesting debate followed, Messrs. Botkin, Donaldson, Mott, and Conger in favor, and Messrs. Ricker and Hoyt against. The previous question was called and the Clerk directed to strike out the protest by the following vote:—

Ayes.—Abbott, Bancroft, Barber, Blodgett, Botkin, Burgess, Burnham, Cate, Clemons, Conger, Cooper, Donaldson, Fellows, Giles, Gordon, Kinney, Merd, Moore, Mott, Phelps, Ramsey, Root, Safford, Skinner, Sterling, Sugden, Tony, Utley, Worthington, Shafter—36.

Noes.—Averbeck, Barlow, Beck, Briggs, Cate, Catton, Cramond, Fyffe, Graham, Green, Hartmett, Hees, Hilliard, Hoyt, Knoell, Lawrence, Lewis, McKee, McNaughton, Monroe, Patch, Peak, Powers, Stouts, Stong, Wood—26.

The House worked through the bill providing for the government of the State Prison, and ordered it to be engrossed. But one Commissioner is to be appointed.

The Senate finished the General Banking Law in committee of the whole, and referred it to a select committee to have the amendments put in order. They worked for most of the afternoon in inserting words and phrases where they supposed that the sense would be improved. After spending about an hour in inserting the words "or banker" after the words "banking association," wherever it occurs in the bill, it was discovered in one of the last sections, that all of their work was already provided for by a section making the provisions of the bill applicable to individual bankers! The Senators looked blank enough at this. The bill will probably get back to the Assembly to-morrow.

The Westfield bridge question was up again to-day, in the form of a charter for a bridge across the Wisconsin river at *Rozbury*, directly opposite Westfield. An earnest movement was made to have it referred to a committee, but without success, and it was killed.

The land grant memorial sent in by the Senate as a substitute for that of the House, was furnished with a proviso similar to the one attached to the former one,—limiting price of lands to not over $1,25, and to be kept constantly in market till sold. In this found it went back to the Senate again.

Three hundred and seventy bills have already passed both houses, and fifty or sixty have been killed.

TOWN ELECTIONS.—In Fort Winnebago, as we learn from the Northern *Republic*, the Town Election was vigorously contested and resulted in the success of the Union Ticket over the Democratic do, by a handsome majority. The vote for Chairman of Board of Supervisors stood thus: D. VANDERCOOK (Union) 237, JOHN DELANY (dem.) 162—Union majority 75! The *Republic* rejoices over the result as full of promise for the interests of the town.

The Watertown *Chronicle* gives returns from many of the towns in Jefferson and Dodge Counties, and "sums up" others:

It will be seen that the Union ticket, so far as heard, has generally triumphed in both this county and Dodge. What will the Register say of this contempt of its counsel, by its own partizan friends?

The *Register* will probably say that it is no worse off than its yoke-fellow the *Commercial*.

THE WHIGS FOR THE UNION.—It has been often charged by the Whig press and denied by the democratic papers that while the whig party at the South were devoted to the Union, the masses of the so-called "democracy" rallied under the State-Rights; or Secession, as against the Union flag. This fact is strikingly illustrated in the following extract from a recent speech in the U. S. House of Representatives by Mr. A. G. Brown, a Secession Democrat from the State of Mississippi

The newspaper press of the State gives always a pretty clear indication as to how parties stand. *If there is one single, solitary Whig paper* in the State of Mississippi that has not kept *the Union flag flung to the breeze* from the opening of the contest down to this hour, I ask my colleague to say which one it is. *If there was a Democratic paper* in the State of one year's standing that *did not take the State Rights side*, with but a single exception, the Columbus Democrat, and keep it, I do not know where it is to be found.

It would certainly be difficult to find, or to conceive any stronger evidence of the fact charged than Mr. Brown's speech furnishes. Let the people of the North and West ponder it accordingly.

WASHINGTON COUNTY SEAT.—The Sheriff, Register of Deeds and County Treasurer of Washington County give public notice that on Monday next they shall remove their respective offices from PORT WASHINGTON to GRAFTON; the latter being, in their judgment, the County Seat of Washington County. Of course, the Port Washington people claim that the County Seat is still at that point, and will contest the proposed removal of the Public Offices.

KATE HAYES.—This delightful vocalist closed her engagement at Cincinnati on Thursday, and it is understood that she will soon turn her steps Westward. We shall look out for her in the next two weeks.

MADEMOISELLE JACQUES' SECOND CONCERT.—The second Concert given by Mademoiselle JACQUES and her party at Gardiner's Hall, was even more successful than the first. The Programme contained a greater variety and the selections for Mademoiselle JACQUES showed to much greater advantage the rare qualities of her voice, and her artistic and finished style. She sang the well-known drinking song from Lucretia Borgia, and an Aria from Macbeth, with a spirit, grace and expression which roused the enthusiasm of the audience, and called forth the heartiest applause. Mr. SQUIRES also won fresh laurels and more than confirmed the high opinion of his musical talents raised by the Concert of Monday.—He was very warmly applauded in all of his pieces and encored in most of them, and left upon the audience the universal impression that no better Tenor has ever been heard in our city. Mr. BRANDES accompanied the singers carefully and correctly and played his own pieces on the Piano very well. The Troupe left on City for Racine and Chicago yesterday morning. We hope to have the pleasure of hearing them again in Milwaukee, for certainly no Artists who ever visited us, have left behind them more agreeable recollections.

A Model Petition.

The following moving petition from our and the public's old friend CHAS. GEORKE, whilom keeper of the Red Bridge and Inventor of a certain specific against Shipwrecks, was yesterday presented to the Aldermen of the First Ward:—

Milwaukee April 13, 1852.

Gentle dear Sirs,
Aldermans of
the first Ward.

Most respectfully I repeat my request by reason of the Division Street Bridge of the first Ward, Your very high
Sublimity, me again please to refer that Business to Tend the Said Bridge? I had as I Suppose a right of privilege to hope for (because I was a Soldier in the 8 inf. Reg't of the U. S. A. and Honorable discharged Aug. 29, 1840, but this concern Certificate is send at the Chief City Washington, by reason of the Soldiers Bounty, refered to the very Hon: Pension Department,) in prospect of this—and whiles that business was very heavy, by the former Old Bridge, I must very often invite a half dozen mans to help me, and this was not every time without expense—Mr: Geelke which live very near on the same Bridge South side 1 Ward can give Testimony thereof, &, Mr: Grenlich 2 Ward and many others, now the New Bridge I to think shall go a good deel more easy, therefore Your Honesty Should favour me.—Your obet: Servant CHARLES GROTKIE.

THE WEATHER IN ST. JOHNSBURY, VT.—A private note from a gentleman, in St. Johnsbury, Vt, dated April 1st, says:—

"It commenced snowing last night, and this morning there was some eight to ten inches of damp snow—making, on the old bottom, fine sleighing. This is the 33d, (thirty-third) snow storm to have laid on this winter; and to-day is the 141st (one hundred and forty first) day of good sleighing in St. Johnsbury and vicinity this season. The thermometers have all "gin out," and are laid up for repairs. Woodruff's services will be in demand; this Spring, for a rarity. A boy, brought up in Grafton Co., and one who flattered himself that that was the "toughest" place, this side of Sir John Franklin's glacioned residence, yields the plan to St. Johnsbury."

THE CUBAN EXPEDITION TRIAL.—The case of the United States against J. L. O'Sullivan and A. J. Lewis, which occupied the United States District Court in the city of N. Y. for three weeks was given to the jury on April 4th, and, after being several hours out, the jury returned into court, when their foreman declared there was no human probability of an agreement, and they were consequently discharged. It is understood that the jurors were seven for the conviction of Mr. O'Sullivan, and five for his acquittal; and eight for the acquittal of Captain Lewis, and four for his conviction.

CAUGHT HIM.—The Maumee River *Times* published an account of the capture of a monster of a fish in that river a few days since, measuring some 23 or 24 feet in length, and containing in its "capacious maw" divers and sundry bibs, and half bbls. of smaller fish, half-worn boots, joints of stove pipe, &c. The Cincinnati *Enquirer* copies the story with evident astonishment! On a close inspection it turns out that the *creetur* was caught on the *first instant*, and the *Enquirer* a few days later.

TONNAGE OF NEW YORK.—We annex the number of vessels which arrived at New York from foreign countries in four different years during the last thirty:—

Calend'r.	No. of Vess. Arrivals	Tons. American	Tons. Foreign	Total Tons.
1821,	912	155,723	16,240	171,563
1831,	1,631	273,237½	62,772	3,77,009½
1841,	2,118	323,952¾	125,673½	549,023¾
1851,	3,840	1,144,485	479,566¾	1,925,051¾

SCOTT IN KENTUCKY.—The following is an extract of a letter, published in the Louisville Courier, written from the 6th Congressional District of that State:

The Whigs of this district will rally upon either Fillmore or Webster as the nominee, but it is useless to try to conceal the fact; they would go into the battle with double the assurance of victory under the banner of Gen. Scott! Besides he would get many Democratic votes in this district, that Fillmore and Webster could not get.

SALE OF PICTURES.—Mr. TOWLEY's collection of pictures will be exhibited during this day at the New York Auction Store, corner of Wisconsin and East Water Streets, and will be offered there at Auction *to-night*. Many of these pictures are clever productions and will doubtless be sold at very reasonable prices.

YANKEE SILSBEE.—A London paper states that J. S. SILSBEE, the great Yankee Comedian, will have cleared forty thousand dollars at the end of his first year in England. He visits Paris professionally, before his return. He is now playing a series of engagements at the Provincial Theatres.

THE COMPROMISE.—The Union was "saved" again in the House of Representatives, on the 5th instant, by a direct vote endorsing the Compromise, declaring it final, and deprecating further agitation. The vote stood, 100 ayes, 65 nays. Among the nays were the democratic Representatives from this State.

THE CALIFORNIA DRIFT.—The Joliet Signal says that over *seventeen hundred* teams have passed that place for California, within the last three weeks. Most of them were from Michigan and Northern Indiana.

THE OHIO RELEASED.—It will be seen from the Telegraph despatches that the steamer *Ohio* has got out of her perilous position in the ice, and is once more fairly afloat.

THE WATCH ORDINANCE.—The Common Council, at their meeting yesterday afternoon, *rejected* the Watch Ordinance; so that our City will be without Watchmen until otherwise ordered.

THE SILVER COINAGE AND GOLD INGOT BILL has passed its third reading in the Senate and is to go into effect the 1st June next. The bill provides that from that date the weight of the half dollar shall be one hundred and ninety-two grains, and the quarter-dollar, dime, and half-dime, shall be respectively, one-half, one-fifth, one-tenth of the weight of the said half-dollar. It also provides for casting gold and silver—deposited for that purpose—into bars or ingots of either pure metal or of standard fineness, as the owner may prefer, with a stamp upon the same designating its weight and fineness; but no piece of either gold or silver, shall be cast into bars or ingots of a less weight than ten ounces, except pieces of one ounce, of two ounces, of three ounces, and of five ounces, all of which pieces of less weight than ten ounces, shall be of the standard fineness, with their weight and fineness stamped upon them; but in cases where the gold and silver deposited to be coined or cast into bars or ingots, there shall be a charge to the depositor, in addition to the charge now made for refining or parting the details to one-half of one per cent. The bill further provides for the coinage of a gold piece of the value of three dollars, the device and shape is to be fixed by the Secretary of the Treasury. This is a remedial measure. The appreciation of our silver coin as a commodity has become greater than its value as coin within the country. Hence its gradual disappearance. To coin dollars or half-dollars without some alteration in their weight is only for the benefit of exporters, who can get a higher price abroad. Therefore, to make the coin lighter is to restore it to its proper relative value with gold, and this keeps it within the country.

MILWAUKEE NORMAL INSTITUTE.

Messrs. Editors:—

The following report, made to the Trustees of the Normal Institute, is respectfully offered, thro' your columns, to the friends of the Institution and of high moral and intellectual cultivation.

In behalf of the Board of Trustees,
WM. L. PARSONS, Sec'y.

REPORT.

The under-signed, who were requested to attend an Examination of the MILWAUKEE NORMAL INSTITUTE AND HIGH SCHOOL, on the 6th, 7th, and 8th of April, and to report, submit:—That one or more of them have been present at all but three or four of the exercises, and give it as their opinion that these have been highly creditable to all concerned. It is a subject of regret that so few of the parents and friends of the pupils were present to witness the evidences of diligence and scholarship on their part, and of signal ability and faithfulness on the part of the Teachers. The examination of a school is, when properly conducted, at once the scourge of Indolence and the triumph of good Scholarship—but if those are absent, whose opinion the Student chiefly regards, the occasion is, for him, of little benefit. Of course, parents are responsible for the right education of their children; and, however they may delegate a portion of their cares in this behalf to the professional teacher, yet, of the original responsibility to see that these are properly trained and taught, they cannot be relieved by teachers, the most accomplished and faithful. They are to see to it, that teachers are competent; and how can this point be determined except by visiting and examining the school? Nor, on the other side, does the conscientious teacher shun—she rather invites the candid scrutiny of the public eye. At the close of a long term of instruction, it is the Teacher's *right*, under the weight of the trust she sustains, to demand an impartial investigation of the manner in which she has discharged her trust.

It appears that many of those who had been connected with this Institution during the past winter, including several from abroad, left before the close of the term, so that we had but *skeletons* of some of the classes present at the examinations. The class in Geometry, for instance, which has, through the term, consisted of seven, was represented finally by only three young ladies. So, in Latin, we had recitations, for only two young ladies in the Æneid of Virgil, and of one in Livy, while a quite numerous class in Latin Reader were not present. Of course, an examination of what was only a remnant of the school, cannot furnish an adequate idea of what may have been accomplished by the whole.

During the past term, the classes have been principally occupied in the study of the following branches of science—besides Reading, Spelling and Writing—viz: English Grammar, Rhetoric, Arithmetic, Geography, Ancient History, Algebra, Geometry, Chemistry, Natural History, Physiology, Latin, and French;—a wide range of reading and study this, to have gone over in one session; but the pupils seem to have returned from their various wanderings in the fields of Science and Literature, laden with many flowers and many precious fruits.

The recitations of the Primary Department were highly gratifying; their reading was uncommonly good, and their spelling was also very good. This class have been *thoroughly* drilled in Mental Arithmetic as far as they have advanced. They also answered well many questions in Natural History. The intercourse between the members of the Primary Department and their excellent teacher was a model of the relation which ought ever to subsist between teacher and pupils. Nor is this remark meant to be confined to the teacher of the Juvenile class; but it was *her* manner towards those under her charge—and seemingly towards *all* of them without partiality—which especially drew our attention to this particular.

The classes in Ancient History, English Grammar, and Rhetoric acquitted themselves handsomely. The recitations in Mathematics and Chemistry were more than respectable; and the answers upon the theory of Arithmetic such as would have done credit to any class of their standing we remember ever to have seen.

Perhaps the most conspicuous fault that fell under our notice was that of indistinct articulation and a too low pitch of the voice; which was, however, without doubt, principally the fault of the contracted rooms in which they have hitherto been accustomed to recite. Speaking and answering audibly is very much a thing of *habit*. And this furnishes an argument in favor of allowing them larger recitation-rooms, which we earnestly hope they may speedily have in a building dedicated to the exclusive use of this school; where also they may be delivered from the annoyance of a disorderly rabble of boys at the doors, from which Teachers, scholars and recitations-rooms in future, we have no fear that the Young Ladies will not make themselves easily heard on public occasions by much larger assemblies than those which lately attended their examinations. But it is almost absurd to expect that young ladies, who have for months been accustomed to adapt their voices to small rooms, will be persuaded to raise the voice and adapt it to an unaccustomed and spacious room in a strange presence, on the day of Examination contrary to long established and reigning habit.

In English Composition, second in importance to nothing in the entire circle of school Instruction, and which contains, indeed, the sum of all mental culture, the performances of all the young ladies were above mediocrity, and those of some were of distinguished excellence. After each recitation, there were read, by the writers, commonly two Essays, or Compositions, followed by Vocal Music at the Piano, or the Melodeon—an arrangement which relieved the recitations in the severer studies, afforded an agreeable variety in the exercises, and rewarded attention to the close. A quite numerous and well-written series of themes on a variety of topics was thus read, evincing much general information, good sense, ingenuity, and occasionally genius—on the part of the writers, and unwearied assiduity and faithfulness on the part of those who have had this department in charge. Upon inquiry into the manner in which compositions of a character so unusual were produced, we became satisfied, that, with very few exceptions, the alterations made by the Teacher, were only verbal. We saw no specimens of Latin or French compositions, and understand that the class in Virgil had not yet advanced to the study of Latin Prosody. The music at the Piano was well executed, and seemed to contribute much to enjoyment of the audience.

The exercises of the afternoon of each day were enlivened by a Colloquy between a number of the pupils, representing the youngest and the eldest grades and the grade intermediate between the two. The Colloquy on Tuesday upon the Science of Familiar things was well sustained by the middle class. On Thursday, the Colloquy closed the recitation in English Literature, in the course of which the peculiar merits of distinguished Poets from the time of Shakspeare down to the present day, found ingenious and eloquent advocates;—nor did their faults escape criticism. At the close, the audience were favored with the reading, by two of the pupils of one of the number of a small sheet published periodically by the school though not printed, which gave evidence of scholarship, maturity of thought and liveliness of fancy.

We understand that energetic measures are being taken, in continuance of the labors of the Secretary of the Board at the East, during the past winter, to augment the funds of the Institution by sub-scriptions among our citizens, and to erect a suitable edifice the coming summer for the Safe keeping of the Library and Philosophical Apparatus, and for the uses of the school. Meanwhile the labors of most of the Teachers will be suspended, to be resumed in the Autumn. It will be noticed that this school is no longer a private Institution, but possesses a public and collegiate character with a recently granted Charter. Neither the Trustees nor the Faculty of Government and Instruction have any other object, or any higher ambition than to make this Institution what its founders contemplated, a noble public Charity—a perpetual fountain of beneficent influence to this whole community. Its Officers and Teachers confidently commit it to the public and say, "let the City of Milwaukee take it for her own, and so locate, endow, and foster it, as to make it the dispenser of the richest blessings, in respect of education, through all coming time. Let Milwaukee make this Institution what she would have the education of her daughters to be." Is it not better to build up a school of this description in our midst—a school which has already proved itself equal to the highest demands that have been made upon it, and at which our daughters can enjoy opportunities for *thorough* and extensive mental culture at comparatively small expense—than to send them to distant schools at an expenditure which only the very wealthy are able to afford? At this Institution, the daughters of the humblest citizens may enjoy the benefits of an education than which nothing superior can be obtained by the wealthiest at the best endowed Seminary in our land. These rich and lasting benefits will be within the pecuniary means of all classes of our citizens. But in order that the Light of Science may shine, it must not be kept under a "bushel," but placed on an eminence; it must be enshrined in an edifice adapted its wants and uses. When the design of those generous individuals who first kindled this light here is thus completed, its cheering and salutary influences will be felt far and wide. It is not to be supposed that, when our citizens come to understand that this is *their own Institution*, they will allow it to languish for want of the funds necessary to give it a permanent establishment. Rather will Milwaukee accept this priceless gift, and, in the honest pride of being thus distinguished, make it, in all respects what she would have it to become. The reputation of our city, patriotism, the cause of good learning, as well as our own interest, and the education of our children, demand, that their Institution be placed, at once, on a footing that shall give the desired efficiency to its means of culture. So will it be a monument of the enlightend wisdom and public spirit of those who lend a hand to the work. All of which is respectfully submitted.

By Ald. Johnston, petition of sundry citizens of Fourth Ward, for a sidewalk, and pump, or Artesian Well.

By Ald. Hickey, sundry accounts for work on Van Buren-st. sewer.

By the Mayor, petition of Daniel Bennett for relief from tax; of Hawley and Hawkins, for bonds in place of orders held by them, of J. J. Orton & Kilbourn, &c.; of J. M. Van Slyck, in relation to weights and measures; of J. Pierce and others, relative to Street Auctions; of sundry citizens for wharfing and docking foot of Detroit Street; of School District in town of Milwaukee, for sale of School House to city; of B. Church, for a City bond in payment of work done by him on the 2nd Ward School, and sundry accounts, all of which were appropriately referred.

The Mayor also laid before the Board a memorial from the Board of School Commissioners for means to finish and furnish the Public Schools.

On motion of Ald. West, the Comptroller and Chairman of the School Committee were appointed on the part of the Board to act with the President of the Board of School Commissioners, visit and examine all the Schools and report to this Board the amount required to finish the same.

The Mayor further laid before the Board an interesting report from the Commissioners of Surveys, as to the importance of an entire re-survey of the City and the erection of suitable monuments, which was referred to Special Committee on Ordinances.

The Mayor also presented a communication from the City Surveyor, notifying the Board that he had filled up an office in Ludington's Block and was prepared to do any duty required of him by the City, and that he had appointed, as Deputies, George Gregory to attend to all surveys in the Third Ward and East of Milwaukee Street in the First Ward; Frederick Schumacher for the remainder of the First, & for the Second Ward; and William S. Trowbridge for the Fourth and Fifth Wards.

Reports of Committees.

By Ald. Brown, from Committee on Fire Department, favorably upon sundry accounts referred to them. Allowed.

By Ald. West, from Finance Committee, favorably upon several accounts examined by them.—Adopted.

By Ald. Dousman, from Judiciary Committee, in favor of accepting Constables' bonds of A. Sifert, P. Scheiner, P. Malloy and J. Buak, and to refer petition of A. Buck to Aldermen of 1st Ward. Adopted.

By the same, adverse to petition of J. B. Winton as special Constable, there being no provision in the Charter for such an officer.

Motions, Resolutions, &c.

By Ald. Foote, that plans and proposals be received for a Pier Bridge across the river at the foot of Cherry Street, as designated in the Charter; said proposals to be received within a fortnight.—Adopted, Yeas 10, Nay 1.

By Ald. West, that the Mayor and Clerk issue City Bonds to the amount of $10,000, to be placed in the hands of the City Treasurer for negotiation, and proceeds to be applied to paying City indebtedness and expenses. Adopted.

By Ald. West, that the Comptroller, in conjunction with the Finance Committee of the Board of School Commissioners, examine and compare all orders issued by said Board, with the stubs in the Order Book, in order to verify the same—Adopted.

By Ald. Hickey, that the legal voters of the Third Ward be authorized to vote upon the location of the Market House in said Ward, and that the lot receiving the highest number of votes be the site selected. Lost, Yeas 2, Nays 9.

By Ald. Dousman, that the Mayor and Comptroller be authorized to contract on the best terms, for the painting of such blanks as may be required during the year.

Mr. West thought the resolution superfluous, as this matter had already been disposed of.

The Mayor thought the question still open.

After some further conversation, the resolution was laid on the table.

On motion, the Marshal was allowed one dollar for every License issued during the year.

On motion, the Assessors were notified to make up their returns and present them to this Board by the 1st June.

On motion, the Mayor and Finance Committee were requested to examine and report as to the best means of funding the City Debt.

On motion, the Comptroller was instructed to notify holders of City Orders and to present the same for Funding, according to law.

By Ald. West, authorizing the Comptroller to settle with all Delinquent Tax-payers on such terms as he might deem best, subject to the approval of the Board. Carried.

Ald. Foote, from the Bridge Committee, reported a contract with Philip Kinchela, as Tender of the Spring-st. Bridge.

Ald. West moved to strike out the name of Philip Kinchela and insert that of M. Towley.

The Mayor doubted whether that motion was strictly in order, the Committee having acted under the instructions of the Board.

Ald. Neustadtl moved to reconsider the vote of last meeting, giving such instructions. Lost, for want of a majority of the whole Board, as follows:—

Ayes—Neustadtl, Reed, West, Johnston, Martin Roesbeck—6,

Noes—Foote, Hickey, Brown, Fischbuck, Dousman—5.

Ald. Martin asked if the result of this vote did not make it obligatory upon the Bridge Committee to contract with Mr. Kinchela as keeper of the Spring St. Bridge.

The Chair said that such was his opinion.

Ordinances.

The Mayor presented, for the consideration of the Board, an Ordinance providing for the organization of the City Watch.

Ald. West moved to fill the blank, so as to provide for appointing one Captain of the Watch and five Watchmen. Lost.

Ald. Brown moved to fill the blank with 15 Watchmen. Carried, 6 to 5.

Ald. West moved to suspend the rules, in order to settle the question now.

The rules were suspended, and the question being upon the passage of the Ordinance,

Ald. Martin opposed the adoption of the Ordinance. He thought the expense greater than any possible good that could be obtained from it.

The Ordinance was then *rejected*, only four Aldermen (Messrs. Brown, Hickey, Fischbuck and Dousman) voting in its favor.

The Ordinance regulating Street Auctions, together with a petition on the same subject, was referred to the Select Committee of one from each Ward.

The Ordinance defining the powers and duties of City Marshal, was read a third time, the salary fixed at One Thousand Dollars, and then, on motion, the Ordinance was referred to the Select Committee.

The Protest of the Justices of the Peace, was reported back from the Committee on the Judiciary, without action, and laid on the table.

The contract with Mr. Kinchela, as Bridge Tender, was presented to the Board, signed by a majority of the Committee, and confirmed by the following vote:—

Ayes—Foote, Hickey, Brown, Johnston, Martin, Dousman—6.

Noes—Phelps, Reed, West, Fischback, Roesbeck—5.

Ald. West moved to instruct the Marshal to prosecute all persons selling spirituous or intoxicating liquors, without license, who shall, after due notice, refuse to take out such license.

Ald. Fischback moved to lay the resolution on the table. Lost 9 to 2, and resolution *adopted*.

Ald. West offered a resolution instructing the Marshal to procure *free tickets* for the Mayor, Aldermen &c., to such Concerts as were licensed, in this City, and especially to those of the *Black Swan*.

The Mayor begged to be excepted from this "free list."

Ald. Brown moved to lay the resolution on the table. Carried.

Ald Foote called up the report of the Finance Committee, upon Dr. Johnson's claim for services as Emigration Agent, &c. (Report allowed $50 instead of $100, as claimed.)

The report was rejected, 6 to 5. The account was then referred to the Comptroller

On motion, the Board then adjourned till Thursday, April 29, at 2 o'clock P. M.

The Rebellion in China.

Canton, January 25.

You may have observed, in the newspapers, frequent reference to a rebellion in Kwangsi. This appears to cause more notice abroad than it does in Canton. There is no excitement here, and from all that I can learn the disturbance is limited to a portion of the Kwangsi province, and is not likely to extend to others. The rebels can be more easily bribed than beaten into submission, and in the end Emperor Haamfoong will probably deem it wise to "buy up" the chiefs, instead of trying to catch them. The Chinese are a very singular people. They sometimes rebel against certain mandarins, who become notorious for their rapacity and corruption; but this is no evidence of dissatisfaction with their political institutions. On the contrary, these are considered by all the Chinese to be the perfection of human wisdom. Here are no theorists of "human rights," no apostles of "liberty, equality, and fraternity," to upturn the foundations of society. The Chinese are perfectly content with the theory of their Government, and may justly be termed (as they have been) "a nation of incurable conservatives." They may not be much attached to the Tartar dynasty, and, as a general thing, are probably quite indifferent about it; and if another family should be seated upon the throne, and maintain the same system of Government, the great mass of the people would care little about it.—There are no hereditary nobility or invidious distinctions of classes among them. The road to the highest honor is open to all, and the son of a coolie may become the Prime Minister, if he has the talents and perseverance to tread the paths of literature, always open, and open to all, which lead to the highest offices in the Empire. Assaults from abroad, and the introduction of foreign ideas, may tend to disturb the system; but so long as the exclusive policy is maintained, so long will the Chinese quietly revolve in the circle which has been woven round them.

The foreign trade is fast leaving Canton, and concentrating at Shanghai. The latter port is near to the heart of the country, and the great producing and consuming districts of China. Full three-fourths of all the American trade will be transacted there next year.

We hear that Commodore Aulick is soon expected in the large steam frigate *Susquehanna*, and it is rumored that he has instructions from the President to visit Japan with a considerable fleet. As the Japanese islands are situated upon the great highway between Shanghai and California, it appears to be right that the Government of the United States should demand from the authorities, a clear understanding as to the manner in which our ships shall be received, which may be driven by stress of weather or otherwise to seek a harbor on their shores. The success of an expedition to Japan, with this object, will depend altogether upon the tact and firmness of the commander.

The Chinese are going over in huge numbers to California, but nearly all of them with the intention of returning as soon as they have obtained a moderate competency. They do not like the idea of being buried in a strange land. They must not be considered as emigrants, who intend to settle and become citizens of the new world, but merely as hired laborers and adventurers.

The trade between China and California is becoming quite valuable.

"Hail Columbia Happy Land."

The Tribune gives the following description of the closing scene in the separation of the New York Fugitive Slave from his wife and child.—

His wife went in and had her last sad interview with him. Her cries and sobs were heard by the multitude outside.

We doubt if a more touching exhibition of the workings of the Fugitive Slave Law has ever been witnessed. The man's wife stood by her husband for three days with a devotion and tenderness unparalleled. Whenever permitted to sit near him, she had fast hold of his hand in both of hers, winging herself in the most intense, half-suppressed agony.

About 12 o'clock, the procession appeared from the back-room Gen. Henry F. Tallmadge, U. S. Marshal, in front; his son, one on the right and the other on the left of the "Fugitive," and two sturdy Deputies of foreign birth behind. Each seemed satisfied with the honorable post he was permitted to take in doing the Slaveholder's work. The Fugitive was conducted out at the back-door into Chambers-st., where a covered carriage was in readiness, into which he was put.

The crowd, chiefly of colored people, rushed around, to catch their last view of their friend—some running to the carriage door to shake hands, and bid good-by, some in tears, some in suppressed murmurs, some calling on God to avenge the wrong, and one devotional old woman was heard crying, "*God'll punish 'em! God'll punish 'em!*"

The carriage left at the time of writing this article. Horace Preston is back in Slavery for life. A woman robbed of her husband, and a little girl four years old of her father! So ends the fourth Fugitive Slave case in New York.

Connecticut Election.

Hartford, April 6.

The returns up to the present hour are favorable to the election of Thomas H. Seymour, for Governor, by the people. He gains in every part of the State heard from.

The Legislature will be Democratic in both its branches, and the Democrats have also a considerable majority on joint ballot—probably 20.

Hartford county is all gone one way. 30 Democratic Representatives and 3 Senators being elected against 8 Whig Representatives.

Still Later.—Further returns show the election of 11 Democrats to 7 Whigs in the Senate, and 110 Democrats to about 75 Whigs in the House. The Democrats have a majority on joint ballot sure.

Seymour's chance of an election still continues favorable. Additional returns give majorities in his favor.

The Latest.—New Haven, April 6.—Litchfield (the 13th district) has elected a Democrat to the Senate, which makes it thus far 13 Democrats to 6 Whigs, with two still to hear from—both in Litchfield county. The Editor of the Courant, (Hartford,) and the Palladium, (New Haven,) give up both Houses of the Legislature to the Democrats, but can yet say what the majority will be.

Hartford.—The result of the election in this town will surprise our friends throughout the State. With a canvass showing a Whig majority of some two or three hundred, we are badly defeated. The cause is apparent. The position of the party on the temperance question has estranged a large number who have hitherto acted with us. It is true, we got some votes from the Democratic ranks; but where one of that class went for our candidates three Whigs left us. A large number of Whigs resolutely refused to go to the polls.—*Hartford Courant.*

THE YACHT AMERICA.—A letter dated Malta, Feb. 6, says:—"The America, the wonder of the day among yachts, arrived on the 2d inst. She came in in beautiful style, after laying-to for four hours in a heavy gale off the N. N. E. Her owner, Lord de Blaquiere, is loud in her praises as a vessel of remarkable speed and buoyancy. She will lie within four points of the wind and do her fifteen knots an hour with ease. Since leaving England, she has had a fair share of heavy weather, and had there been any truth in the prognostics of her detractors, that her masts would be carried away in bad weather, and other similar follies, there was every possible opportunity for their being realized. But the pretty craft nobly did her duty, doing fourteen knots for a whole night, when running with but her jib set, and setting all bad weather at defiance.—During her stop she has been visited by numbers of persons. The America will proceed to morrow to Alexandria."

MARRIAGE EXTRAORDINARY.—Yesterday afternoon the Stone Chapel was densely crowded with ladies and gentlemen, to witness a marriage ceremony by the Rev. Dr. Peabody, of the happy pair consisting of the beautiful daughter of Robert G. Shaw, and the son of David Scars. The bride was magnificently attired. She wore an elegant white figured silk dress, of the latest style and richest fabric. Her head was wreathed with orange flowers, and she was otherwise appropriately costumed. The bridegroom looked as rich and neat as a new gold dollar just from the mint. The sidewalk from the carriage to the church door was well matted. The ceremonies were solemn, imposing and brief.—Boston Commonwealth.

BIG CALF.—Walter Pease, Jr., of this village, last week sold to Messrs. W. Stanton and W. Lyon of Oak Grove, a Durham bull calf, about eleven months old, weighing 226 pounds.—*Watertown Chronicle.*

Correspondence of the Courier and Enquirer.

Affairs in Washington.

Washington, April 3.

The case of Dr. Gardiner was again called up in the United States Court yesterday, when the District Attorney presented his reasons for asking a continuance until the June term. The counsel of the accused protested earnestly against the course pursued by the Government, alleging that it had assumed the shape of persecution, and that the delays of the last nine months had proved seriously injurious to the reputation and interests of their client. In order to test the intention of the prosecution, they submitted a proposition to waive the constitutional rights of Dr. Gardiner by allowing the report of the Government agent who had been despatched to Mexico, and the written testimony collected by him, to be received in evidence. But the District Attorney declined to go on with the trial upon such terms, and then the opposing counsel submitted a demurrer, which will probably be argued next week. In adopting this alternative, they stated to the Court that Dr. Gardiner desired the fullest legal investigation, but they considered it due to him, after what had occurred, that every redress furnished by the law should be sought. It is by no means improbable now, that the indictment will be quashed, and that the Government may be unable to sustain the suit, after all the cost of money and time.

TIME TO STOP.—Speaking of courting, reminds us of a little incident that occurred in our city "once upon a time." A close listed old codger had a likely daughter, whose opening charms attracted the attention of a certain nice young man. After some manœuvering, he ventured to open a courtship. On the first night of his appearance in the parlor, the old man, after dosing in his chair until 9 o'clock, arose and put a log of wood on the fire, saying as he left the room: "There, Nancy, when that is burnt up, it's time to stop.—*Detroit Advertiser.*

The Late Gale.

Boston, April 7.

The Brig Mariel, of Belfast, from St. Marys for Boston, went ashore on Cohasset rocks, during the late gale, and is a total loss. Every soul on board perished. The vessel had on board at the time a cargo of naval stores.

A large Barque, with her masts cut away, is at anchor off Second Cliff, near Scituate. 15 bales of cotton were found on the barque.

The steamer St. Lawrence, which left Portland, Maine, on Monday, 7 p. m., arrived this morning. She encountered a terrific gale, which compelled her to throw overboard part of her cargo. One man was lost.

The St. Lawrence had on board 220 passengers, who suffered greatly. The boat is much strained.

Baltimore, April 7.

Much damage has been done by the late storm in this city. The tide rose to an unusual height, causing the water to overflow the wails in several places, filling cellars and sweeping away much property.

Jones' Falls and other streams around the city are much swollen, and serious damage is apprehended. Such weather at this season of the year has not been experienced for thirty years past.

Arrival of the Dan. Webster.

New York, April 13.

The Dan. Webster arrived last P. M., with 150 passengers and $150,000 in gold.

News from San Francisco is two days later, but is unimportant.

The City festival was eminently enthusiastic. Letters were read from Messrs. Fillmore, Webster, Conrad and others.

Erie, April 13.

The J. D. Morton, left for Cleveland and Toledo, this morning, and will probably get through the ice, as she is some distance above the Head of the Peninsula. The Propeller Globe left at noon, bound up; the Queen City and Superior are here; the Ohio, has got through the ice, and is at the dock. Bay entirely clear of ice.

The Baltic and Ocean are now firing up and will leave on the arrival of the cars this P. M.

From appearances they will meet with no serious obstacle from the ice, the South wind having started it off this shore.

Boston, April 13.

The Massachusetts Senate passed to a third reading, after an animated debate, the resolution in favor of intervention.

Savannah, Ga., April 13.

Lamars cotton factory was destroyed by fire on Sunday. It was insured for $20,000. Loss is $30,000.

FOREIGN NEWS.

RUSSIA.—*The War in Caucasus.*—The Journal de St. Petersburg containg new bulletins from the army of the Caucasus. It is stated that on the 10th and 18th of January different columns, which had been directed upon the valleys of the lesser Tchetchnia, encountering bodies of mountaineers, of whom they slew great numbers, and set fire to their villages. The Russian loss in these various combats was 49 killed and 233 wounded. Among the former was Major General Kroukowski, who was struck by a musket ball while investing a village at the head of his cavalry. A hotter contest took place at Daghestan.

A column was sent out on the 14th of January, which, after destroying the village of Mischkil on the 17th, on the 18th invested Schellagi, rendered almost impregnable by the fortificaons which the mountaineers had raised there. After a fierce struggle the place was taken and burnt, but the Russians lost first 130 men killed and 311 wounded; among the latter were two colonels. All the inhabitants perished.

Incidents such as these have filled the bulletins of the Russian army of the Caucasus for the last 6 years.

Once in twelve months the Russian forces advance some distance into the Territory of the indomitable mountaineers, according to a plan prepared in the military chancery of Tiflis, destroying the villages of Techetschina, Daghestan and Leshistan, lighting the primitive forests by the incendiarism, and seizing upon the herds of the natives. These operations are, however, of brief duration, and may be renewed for many years without procuring the least submission of the people. The failure of provisions and the early snows compel an early retreat. The Circassians led by Schamyl or one of his naibs, follow the retreating Russians, and harass their ranks, attack the convoy, cut off the weak and failing, and revenge themselves for the desolation of their villages by similar devastations on the Russian territory on the other side of the Sundscha and Terek. In the Western Caucasus the war has never been carried with so much bitterness and constancy.

By the true Circassian people, who speak three distinct languages, and are divided into a number of small tribes, a pacific attitude will be maintained, almost unchanged, for several years. But still hostilities have never entirely ceased in the Circassian mountain land. After years of inactivity, attacks upon the Russian posts upon the Black Sea recommence; from some unknown cause of warlike passion a Berserkerlike fury suddenly seizes the valiant race. Then the chiefs of all the tribes assemble under the sacred oak, and their swords to Seaseroe, the god of battles, who, like many other deities of the place, maintains his ancient honors in spite of the introduction of Islamism, and sustains a more considerable part here than Alleh, or the prophet. All the politic attempts of Prince Woronzow to captivate the western mountaineers by offers of material advantages and lucrative trade, are scorned, and the French may hope to civilize and settle Kabylia long before Russia will have gained peaceful possession of Circassia.

NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURGLAR-Proof Iron Safe in competition with the whole world at the great Exhibition in London, for which an impartial jury awarded a medal.

The subscriber has been put in competition with others for that purpose. Certificates have been received from the following well-known mercantile houses, who have had their books, papers and money preserved in these superior Safes when the Safes were thirty days, (and can, with many others, be seen at my store,) viz. Messrs. Stillwell & Montrose, and Mr. J. L. Watkins, in the Safes of the former; Messrs. Baker & Robinson, and Messrs. John Lockwood & Co., in the great fire corner of Liberty and Nassau Streets, and Messrs. Proud & Bowman, in Jersey City.

I am the importer of HALL'S PATENT LOCK, which obtained a medal (in the name of Adams & Co., Boston,) at the World's Exhibition, and is considered the best Lock for the price, ever invented, being proof against powder, and the key is no larger than a cent, and can be made changeable.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best Fire, Burglar and Damp-Proof Safes combined.

Former and new patients, therefore, may depend upon his giving due attention to their cases. They will find so find comfortable and pleasant accommodations both for themselves and friends, but will please to remember that the establishment is located on the *pure air, diseases by means of water*, and not for a hotel at a fashionable watering place. Yet, to the lovers of nature and a quiet summer residence, the house has many attractions besides its Watercure, for Nature has indeed been lavish of her gifts on the town, and the walks and drives in the vicinity.

LOST.

A ROLL OF MONEY—about $100 in bills, mostly of the denomination of 10 and 20 dollars. The package was rolled up in a piece of brown wrapping paper. It was lost somewhere on East Water street, between the office of Austin & Dunn and the Steamboat Hotel, about 1 or 5 o'clock yesterday afternoon. The finder, by leaving the money at the office of Austin & Dunn will be liberally rewarded.

Milwaukee, March 24, 1852. dtf

ON THE RIGHT TRACK AGAIN.

THE Post Office has turned the tide of affairs, or rather of travel, towards Mason Street—and Emery's shop being there, gives them a chance at the molasses candy. Those in want will please to drop-in, where a nice little variety of Candies without coloring, may be had—some nice Apples, a good Cigar—a little Pop Corn, and a piece of cake.

EXTENSIVE LAND SALE!

TWELVE FARMS.

THE subscribers will sell at Public Auction twelve Farms, and valuable tracts of timbered lands, situated in Berlin, Winneconne, Richland and Oshkosh.

And also, their entire Interest of Village Property, in Utica and Rush, according to the Plat of Rush and Utica.

Also 7 of 10 acres of land, adjoining said Village; the same being an undivided interest.

The sale to commence the

FIRST TUESDAY IN APRIL, 1852,

and continue from day to day until all is sold.

The terms of sale will be made known at the time of making the deeds, one-third in one year, and one-third in two years, with 12 per cent interest, payable annually; the amount of purchase to be secured by Mortgage.

The said farms, described by divisions are,

Farm No. 1, 80 acres, fenced and watered, 50 acres plowed, with house and barn.

No. 2, 160 acres, fenced and watered, 90 acres plowed.

No. 3, 120 acres, fenced and watered, 60 acres plowed, with house and barn.

No. 4, 160 acres, fenced and watered, 80 acres plowed.

No. 5, 160 acres, fenced and watered, 60 acres plowed, with house.

No. 6, 160 acres, fenced and watered.

No. 7, 160 do.

No. 8, 160 do.

No. 9, 160 do.

No. 10, 120 do., fenced and watered, 15 acres plowed, with house and barn.

No. 11, 155 acres, fenced and watered.

No. 12, 280 acres, fenced and watered, 20 acres plowed.

Also 150 acres timbered land.

Farms No. 4 and 5 have cashiau orchard of grafted apple trees, collections of choice varieties of fruit.

Said farms are mostly prairie with oak openings. Surface, diversified with plains and undulations. Remarkably well watered with springs branches, Bear Creek, and Pan and Waterville rivers—the last a navigable stream. Said farms are reported to us as being healthy and all quarter of the climate, and particularly for grazing. English grass common to the United States grows luxuriantly. The extensive ranges of prairie and natural meadows, with an abundance of pure water, afford the most favorable opportunities for

Dairy, Stock-Raising & Wool-Growing.

Said farms are situated from one to three miles from Richland City (on the Wisconsin river,) in a section of country unsurpassed for healthfulness.

The Timbered Lands are choice selections, and are situated along the Wisconsin and Pine rivers, and from one-half to two miles from the Village, where a favorable opportunity exists (from the abundance of good sawing timber, the price of lumber, and the facilities for manufacturing,) for such a profitable investment in manufacturing lumber by steam power.

Said Timbered Lands will be sold in tracts to suit purchasers. GARWOOD GREENE,
EBENEZER LANE.

Richland City, Wis., Jan. 2, 1852.

Also will be sold at auction, after sale of the above lands, 2 yoke of Oxen and Steers, one pair of Horses, several good two horse Waggons, 2 sets Double Harness, 20 head of Cows, Heifers and two-year-old Steers, a choice lot of Hogs, with four Farms, and a variety of farming tools; also $200 worth of hewn timber and lumber. Terms of sale, six months credit, with 12 per cent interest.

C. GRÆSSLE'S

PRESSED, FIRE-PROOF TILING.

CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire-proof Tile, invented by Mr. Græssle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I hereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by ocular inspection of the excellent quality of the same. DENNO MEYER.

Druggist, 371 W. Water-st., 2nd ward.

Milwaukee, Feb. 3, 1852.

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Græssle. AUGUST KRUG,
Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr. Græssle, have found them perfectly answering the purpose intended. Their practical and ingenious construction recommend this kind of Tile, not only as a fire-proof and perfectly water-proof covering, but above all for its durability. The ridges and channels not only exclude the entering of snow or rain-water, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely movable position and an intimate connection with the roof. Besides, Mr. Græssle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable; and, joining to the above mentioned virtues, viz. that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending the building community with the above roofing Tile as an excellent and suitable material.

OTTO SCHWARTZ, } Architects
VICTOR SCHULTE, } & Builders.

Milwaukee, Feb. 5, 1852.

To G. Græssle:—I have examined the Roofing Tile made by you, and I have no hesitation in recommending them to general use, and particularly as a fire-proof roof.

SHELDON'S OIL WATER PROOF POLISH

Is attracting the most universal admiration where it has been tested? We can produce testimony of the highest respectability, and are confident if yours, if you will but give it a fair trial.

It surpasses everything ever before offered to the World,

It gives a brilliant polish, and is not washed off by Castile soap and water. It is easily applied, and will last a long time. Try it once, brother. Ladies commend it very highly for their own, and

MISSES SHOES AND RUBBERS.

Adding to a brilliant lustre the virtue of not soiling the white or linen. For Gentlemen's

BOOTS, BALMORALS, CARRIAGE TOPS, TRUNKS, PANTS, LEATHER AFTER WORN, and leather of every description.

It is an emulsion of Oil to Leather, and not only keeps out water, but preserves the leather, and keeps it from cracking.

THE subscribers, thankful for past favors, beg leave to call attention to the Stoves they have recently added to their assortment of Stoves, which for neatness, durability and cheapness cannot be excelled by any similar establishment in the West.

In offering these Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST

DOUBLE OVEN COOKING STOVE.

Which received the First Premium at the State Fair, lately held at Janesville,

Has a great advantages over any other stove, for plain fire and durability of heat, being so arranged that a very little wood can be used at a time. It will cook in half the time of any other stove now in use, and with half the fuel, consuming over four cords of wood in one year.

THE TRIUMPH, single oven, takes in long wood, is an excellent baker—one that has been well tested, and given general satisfaction.

THE PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

THE JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stow combined with the handsome of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front door and below the grate being opened or closed with three doors, and so arranged that when open there are completely out of sight. It is equally adapted to coal as well as wood.

THE RADIATOR is the best coal stove ever got up as a radiator of heat.

The cooking parts of the stoves of us, in the event of any of the parts getting broke, can at all times be supplied with extra ones, thus superseding the necessity of throwing away stoves as many are daily compelled to do in buying of the first ware.

Those who are in want of an article in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.
